The object of the Commercial is doubtless to prejudice the minds of our American population against him, and hence it makes no semple to circulate the most unfounded calumnies concerning Mr. Rouscas, thinking that his denials will not reach the eyes of those who

A friend has furnished us with a translation of one of the Polkshalle's answers to the Commercial, and we give it below, inviting the condid attention of our renders to its manks tone, and evident truthfulness: Amover of the "Vollashalle" to the Slauderos Assertions of the "Commercial," It is false, that either Mr. Booth or Mr. Kisc as contributed money to buy this journal.

We are causing great excitement here, wherever wo ga. Do you propose to convey the idea that German land agents, as a class, are not worthy of respect—but a set of swindlers?

Allow me further to ask the question: Is not a Land Agent, who does the business which has been confided to him faithfully, or the Merchant, Mechanic, or Laborer, more respectable, and a more useful member of this community than the unprincipled and mercenary conductors of a public newspaper, who, for the sake of money, and

LARGEST PILE OF SPECIE IN THE WORLD -A LARGEST THE OF SETER IN THE WORLD,—According to a recent return of the Bank of France, the specie on hand amounted to 607,000,000 of finnes, which is about \$115,000,000. In France, the legal currency is silver, and not gold; hence, it is probable that nearly all this specie is salver; and hence the recent diminution of silver in this country.

The enormous accumulation of silver in the Bank of France is regarded as an application of symptom of her trade; for the discounts and circulation of the Bank have diminished. Hence, trade is stagmant. It is probable that the fear of a rolitical convulsion at the next Presidential el-
